

GAINED 34 POUNDS

Persistent Anemia Cured by Dr. Williams' Pink Pills After Other Remedies Had Failed.

"When I began taking Dr. Williams' Pink Pills," says Mrs. Nathaniel Field, of St. Albans, Somerset county, Maine, "I was the palest, most bloodless person you could imagine. My tongue and gums were colorless and my fingers and ears were like wax. I had two doctors and they pronounced my trouble anemia. I had spells of vomiting, could not eat, in fact, did not dare to, I had such distress after eating. My stomach was filled with gas which caused me awful agony. The backache I suffered was at times almost unbearable and the least exertion made my heart beat so fast that I could hardly breathe. But the worst of all was the splitting neuralgia headache which never left me for seven weeks. About this time I had had several numb spells. My limbs would be cold and without any feeling and the most deathly sensations would come over me."

"Nothing had helped me until I began taking Dr. Williams' Pink Pills, in fact, I had grown worse every day. After I had taken the pills a short time I could see that they were benefiting me and one morning I awoke entirely free from pain. The distress after eating disappeared and in three weeks I could eat anything I wanted and suffer no inconvenience. I also slept soundly. I have taken several boxes of the pills and have gained in weight from 120 to 154 pounds and am perfectly well now."

Dr. Williams' Pink Pills cure anemia because they actually make new blood. For rheumatism, indigestion, nervous headaches and many forms of weakness they are recommended even if ordinary medicines have failed. They are sold by all druggists, or will be sent postpaid, on receipt of price, 50 cents per box, six boxes for \$2.50, by the Dr. Williams Medicine Company, Schenectady, N. Y.

Natives Steal Many Sheep.

A farmer at Winburg, Orange River Colony, alleges that in his district alone 24,000 sheep are stolen annually by the natives. On this basis he calculates that 300,000 sheep are stolen throughout the colony every year.

Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed, you have a running ear or feel the ear full, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surface. We will give One Hundred Dollars for any case of Deafness caused by catarrh that cannot be cured by Dr. Williams' Catarrh Cure. Send for circular, free. J. C. CHENEY & CO., Toledo, O. Sold by Druggists, etc.

Lord Rothschild's Tart Reply.

Lord Rothschild, who is taking a prominent part in the commission which is considering as to the best territory for Jewish colonization, is the wealthiest member of the wealthiest and most famous banking house in the world. His monetary and social influence suggest the monarch rather than the financier. There is a story that Jay Gould once called upon him on business. Lord Rothschild sent out word that he was too busy to see the caller. Mr. Gould, not accustomed to being denied audience by anyone, sent back rather a tart repetition of his request. After an interval the attendant returned with this reply from Lord Rothschild: "Tell Mr. Gould that Europe is not for sale."

Sounded Praises of Soap.

In a guide to etiquette published early in the last century the writer says that "soap does not irritate the complexion; some of the finest complexions we have known have been regularly washed with soap every day." The same authority remarks that "the daily bath is now the rule rather than the exception, and common sense has triumphed over the decision that washing was injurious." And then the writer has a dig at her great-grandmother, "whose only ablutions consisted in wetting her cheeks with a cambric handkerchief dipped in rose-water." "In all our directions with regard to the bath," adds this early Victorian dictator, "it must be borne in mind that we only refer to those in sound state of health."

NEW YEAR'S CALLS.

A New Drink to Replace the Old-Time "Apple-Jack."

Twenty-five years ago the custom of making New Year's calls was a delightful one for all concerned, until some of the boys got more "egg-nog" or "apple-jack" than they could successfully carry.

Then the ladies tried to be charitable and the gentlemen tried to be as chivalrous as ever and stand up at the same time.

If anyone thinks there has not been considerable improvement made in the last quarter of a century in the use of alcoholic beverages, let him stop to consider, among other things, the fact that the old custom of New Year's calls and the genteel tipping is nearly obsolete.

The custom of calling on one's friends, however, at the beginning of the new year, is a good habit, and another good habit to start at that time is the use of well-made Postum instead of coffee or spirits.

A Staten Island doctor has a sensible daughter who has set Postum before her guests as a good thing to drink at Yule Tide, and a good way to begin the New Year. Her father writes:

"My daughter and I have used Postum for some time past, and we feel sure it contains wholesome food material."

"I shall not only recommend it to my patients, but my daughter will be most pleased to give a demonstration of Postum to our Christmas and New Year's callers." Read "The Road to Wellville" in pks. "There's a reason."

SUPPLY BILLS; NOTHING ELSE

Forecast of Work Likely to be Accomplished at Short Session of Congress

The Report on the Ship Subsidy Bill Will Probably be an Exception to the Rule for no General Legislation at Coming Session.

Washington.—The passage of the appropriation bills and as little other general legislation as possible. Such in brief is the forecast for the short session of the Fifty-ninth congress, which began at high noon Monday.

There has not yet been time for as general an exchange of views among members as is ordinarily desired by leaders before expressing their views, but all seems to regard the present situation as so simple as to need comparatively little intercourse to arrive at an understanding. It is evident for various reasons that it will not be possible to do much on the appropriation bill before the holidays, and the circumstance may have the effect of condensing the consideration of the fourteen large supply measures into two months. Considering that the aggregate of the appropriations to be considered will approximate one billion dollars, some senators and members express the opinion that congress cannot do better than give all of its time to these measures.

The report on the ship subsidy bill probably will be an exception to the rule for no general legislation. The friends of that measure have never been more insistent than now. They are extremely hopeful, and yet very apprehensive.

ONLY MEN AND MONKEYS.

Vices Not Found in Other Members of Animal Kingdom.

Boston.—Three addresses delivered before a large audience Sunday night brought to a close the Social Education congress. Rev. William M. Long of Stamford, Conn., in dealing with "Nature's Message to Moral Education," said that man seems to be the only creature that is immoral, although the child is born a moral animal. The beastliness of nature in man was shown, he declared, in a personal uncleanness, the envy and greed aroused by the setting up of wealth against poverty, gluttony and drunkenness and sexual vices. None of these, he asserted, was found in the animal kingdom except in man and monkeys.

TOOK PEOPLE BY STORM.

Natives Were Glad That President Roosevelt Came to Panama.

New York.—President Roosevelt took the Panama people by storm, said Theodore P. Shonts, chairman of the Panama canal commission, who arrived on the Panama line steamer Colon, from Colon. Mr. Shonts spoke enthusiastically of the recent visit of the chief executive and declared that work on the canal was progressing under satisfactory conditions. During his talk with the newspaper men, Mr. Shonts took occasion to deny that his daughter Theodora had become engaged to a titled foreigner.

Honor Memory of Hay.

Philadelphia.—Lauded as a diplomat who tempered statecraft with the golden rule, the late John Hay was honored by the Jewish people of this city Sunday, when a handsome memorial window to the dead secretary of state was unveiled at Keneseth Israel temple. The exercises, attended by Secretary of State Elihu Root, Oscar Straus, Andrew D. White, ex-minister to Russia and Germany, together with six members of the Hay family, were among the most striking ever held in a Jewish synagogue.

For Care of Consumptives.

Atlanta, Ga.—The American Anti-Tuberculosis league, under the presidency of Dr. George Brown, of Atlanta, is planning for the introduction in the legislature in every state in the union bills to secure uniform legislation for the care of indigent consumptives and to prevent the spread of the disease. This plan will be laid before the next meeting of the league. The co-operation of government officials, national, state and municipal, is to be asked to forward the measure.

Murdered and Robbed Three Men.

El Paso, Texas.—After a desperate fight with officers, during which he was shot several times, A. R. Shiley, the sheepbuyer, who is alleged to have murdered and robbed B. M. Cawthorn and J. W. Ralston and another rancher on three successive days, in Valverde county, was captured in the mountains near Sanderson, and is now in jail, believed to be mortally wounded. The circumstances attending the three murders are said to have been almost identical.

COMMISSION CLOSES ITS WORK IN SALT LAKE CITY

Utah Coal Companies on the Grill and Sensational Evidence Secured Against These Corporations.

Salt Lake City.—The conclusion of the interstate commerce commission on Friday was no less sensational than the entire proceedings have been. The Utah Fuel and allied coal companies were on the grill, and the evidence secured against these corporations was uglier, if possible, than that secured against the Union Pacific railroad and coal companies at the September hearings.

It was asserted by witnesses on Friday that the Utah Fuel and allied companies with the Rio Grande railroad system, not only secured control of the coal deposits of Utah by Winchester persuasion, but for years held full sway over the wires of the Western Union, thus holding all possible means of getting relief which might be sought by the would-be independent producer.

Testimony was submitted which showed that the combine of Rio Grande and Rio Grande Western and their allied coal companies secured the largest portion of the vast coal deposits in southern Utah; owned the only means of transportation, thus controlling the supply on Utah markets, and was dictator supreme of the Utah coal situation.

Armed thugs, it was asserted, were hired by the coal companies in Carbon and other counties to keep off any would-be independent producers, and these thugs played their part well. Shooting was common during the fights and feuds over possession of coal lands and the courts were laughed at by the men placed in charge of the deposits.

Secret rates were described, Charles Livingston, a former employee of the Utah Fuel company, asserting that his company enjoyed a one-half cent per 100 pounds per mile rate on freight. This rate, which was far below the regular tariff rate, was enjoyed until August of the present year.

NEWHOUSE INVESTS 5 MILLIONS.

Millionaire Mine and Smelter Owner Shows His Faith in Utah.

Salt Lake City.—The most gigantic individual deal in commercial real estate ever attempted in Salt Lake City and one of the most important and significant transactions of its kind the west has known in years was consummated here Friday night, when Samuel Newhouse, the multi-millionaire mining magnate of this city, secured the final option that gives him control of practically a complete half block of property in the heart of Salt Lake's retail business district and three big corners outside the block in its immediate vicinity—in all three-quarters of a mile of business street frontage and eleven downtown business corners.

The deal involves a consideration of \$1,000,000, to be paid out in cash for the property now held under option by Mr. Newhouse within the next sixty days; the expenditure of \$5,000,000 in improving the property, including the erection of two sky-scrapers, and finally the immediate acquisition of more property in the vicinity of the half block purchase.

State Funeral at Boise.

Boise, Ida.—The funeral of the late Frank W. Hunt, former governor of the state, was held Friday, all the honors that were due because of the position he had held being extended. From 10 to 2 o'clock the remains lay in state in the capitol guarded by a detail of the United States troops and representatives of the Knights Templar. At 2 o'clock the remains were removed to St. Michael's Episcopal cathedral. Bishop Funston delivered a short address, after which the service of the Knights Templar was read.

Cotton Exchange Opened.

Liverpool.—The Prince of Wales, who was accompanied by the princess, on Friday opened the new cotton exchange here, a handsome building which has just been completed at a cost of \$1,700,000. In his speech the prince referred to the efforts being made to develop the cultivation of British grown cotton with the object in view of making the British cotton spinners partially independent of foreign supplies, and said he had followed the developments with great interest and hoped the movement ultimately would be successful.

Killed by Falling Walls.

San Francisco.—Eddie Cuneo, aged 11, was killed, and his companion, Joseph Castro, aged 10, was badly injured Friday afternoon by falling bricks which were blown from the top of one of the ruined walls of the Palace hotel. The bricks fell on the Market street side and immediately after the accident the police stretched ropes across the street for the purpose of preventing further accidents. As a result the cars running on Market street were tied up for some time.

Wreck Caused by Operator.

Lynchburg, Va.—The cause of the awful wreck near Lawyers station ten miles south of this city, Thursday morning, in which President Samuel Spencer and his party of prominent New York and Baltimore men lost their lives, is laid absolutely at the door of C. D. Mattox, the operator who was in charge of the block telegraph station at Rangoon. Mattox, who disappeared after being relieved less than one hour after the accident has not been found.

NORTHWEST NOTES

H. S. Glenn, a brakeman, fell under the wheels of a freight train at Wilcox, Wyoming, and suffered injuries which proved fatal.

The coal situation in the Yakima valley, of Washington, is growing worse. The weather is colder and some families are suffering.

According to the annual report made public last week, the gold production of mines of the Black Hills for the past year was \$9,986,900, a decrease of \$250,000.

Howard M. O'Haver of Denver is dead from injuries received by being run down by an automobile driven by Miss Birdie Appell, a young daughter of J. S. Appell, a prominent merchant of Denver.

Nicholas De Jausserand, second assistant engineer of the Globe Navigation company's steamer Aureka, was drowned at Seattle in falling from a gang plank that led from the wharf to the boat.

John Walker of Des Moines, Ia., arrested charged with holding up and robbing women as they alighted from street cars in a fashionable residential section, made an unsuccessful attempt at suicide in the city jail.

A deal was consummated in San Francisco last week by which Senator George S. Nixon of Nevada and George Wingfield, who recently effected a \$500,000 merger of mines in the Goldfield district, acquired the Combination mines, mills and water power in the Goldfield camp.

Mrs. Julia Thulke and her son have been captured at Farnie, B. C., and will be brought back to Spokane. Mrs. Thulke is accused of obtaining \$3,000 from Charles De Neff, an old German farmer, having persuaded him to give her his money "for safe keeping" on the eve of their wedding day.

Word comes from British Columbia that the Hindoos imported to work on railroad construction are suffering intensely from the cold, not being provided with clothing suited to this climate. It is said several of the Hindoos have perished and that low temperature and thin garments are the cause.

The chief point brought out in the trial of Sidney Moore for the murder of his father at Seattle was the testimony of Charles Coleman that the defendant was a petty thief who tapped their cash register and robbed the slot machine in his father's store. The defense is trying to prove mental irresponsibility.

A gigantic mining stock swindle, from which Dr. J. Grant Lyman, of New York, is declared to have realized \$300,000 within thirty days, was uncovered at Goldfield by the arrest of E. H. Latimer, his secretary, and a statement made by Sheriff Bradley that he has wired instructions to the chief of police at Pasadena, Cal., to apprehend Lyman.

Claude Shea, a young man from near Reno, Nevada, was taken to Ogden last week suffering from frozen feet. He was taken to the hospital for medical treatment, in the hope of saving his feet, though the physicians who are caring for him fear the injuries are too serious to be able to save them entirely.

The Harmony Lutheran church on the Laramie plain, just organized, having determined to erect a log meeting place on the agreed site, called for volunteers to chop and haul the logs from the forest in the mountain. The response was so hearty that the congregation voted unanimously to begin the erection of the building without further delay.

August Trabling, one of the pioneer merchants of Wyoming, once member of the territorial legislature of Wyoming, member of the board of county commissioners and mayor of Laramie, died on the 29th at his home east of Laramie, of pneumonia.

About 150 citizens of Ontario, Ore., held up a westbound freight train at 12 o'clock at night and ordered the engineer and conductor to switch from the train four cars of coal. The order was obeyed and the coal famine in Ontario for a time is settled.

Articles have been signed by representatives of Joe Gans and Kid Herman and the Casino Athletic club for a finish fight for the lightweight championship of the world, to take place at Tonopah, Nevada, on New Year's day, for a purse of \$20,000.

Wool producers have complained that the shrinkage reports from Boston, Philadelphia and other wool centers was greater on Wyoming wool than others, and the experiment station has begun tests to determine the exact shrinkage of wool in scouring.

Delcina Palmer shot and killed her cousin, William B. Palmer, at the home of her father, near Albany, Ore. Apparently there was no provocation for the act. The woman formerly was an inmate of an asylum. Following the shooting she became violently insane.

Fred A. Shepperd was hanged at the penitentiary at Salem, Ore., on the 30th, for the murder of Benjamin F. Seell in Crook county, Sept. 24. On the scaffold Shepperd confessed the murder and said some one was guilty with him, but he did not give the name.

Adjustable Definitions.

In the political lexicon "unmasked" is the term applied to a member of the opposing party who has been slandered, and the term "slandered" is applied to one of the faithful who has been unmasked.—Louisville Courier Journal.

Philosophy of Riches. Getting rich is a matter of denying yourself the things you want so as to be able to have them when they no longer exist.—St. Louis Globe-Democrat.

Need of Information.

The levied traveler had delivered his great lecture on the manners and customs of Japan.

"And now," he said, in conclusion "I shall be pleased to answer questions pertaining to any peculiarities of this interesting people upon which I may not have touched in my discourse."

"Professor," eagerly asked a young married woman in the audience, "what do the Japanese do to plum juice to make it jelly?"

UTAH IMPLEMENT CO.

Makes Statement Through Its President.

Since there has been a great deal of publicity given the Utah Implement Company, of Salt Lake, recently, owing to an action brought against the management by five of the stockholders who had been maliciously misled into a belief that their interests were not being properly handled, it seems advisable to let the public know that investigation proved the charges to be without foundation, and that the complaint was withdrawn, and the officers of the company exonerated from the charges brought against them, and the case dismissed. The company is solvent and the business of the company is progressing as usual, and we thank our many friends for their expressions of confidence and support, which we will endeavor to merit in the future as we have in the past.

UTAH IMPLEMENT CO.
By M. B. Whitney, President.

Deadly Southern Punch.

"If you think they drink liquor here in New York," said the southern man, as they began to mix the punch the ambulance goes with, "take a little trip to Atlanta and try the artillery punch they make there. It looks like lemonade, but, well, I waked up four days after."—N. Y. Press.

Different Kinds.

"Most actors admire Shakespeare." "Some do," answered Mr. Storming-ton Barnes. "Others are too busy thinking of how Shakespeare would admire them if he could only see them do his plays."

Man's Whole Duty.

He who is truthful, just, merciful and kindly, does his duty to his race and fulfills his great end in creation, no matter whether the rays of his life are not visible beyond the walls of household or whether they strike the ends of the earth.—Lord Lytton.

Imitating Life.

News comes that Wizard Burlesque has succeeded in producing an act that is sweet on the side and so on the other. That's just like life, sweet with the gall.

From Ogden and Salt Lake City to Missouri river points \$1.00
Chicago \$1.40
St. Louis \$1.40

Proportionate rates from Idaho and other points. Dates of sale, Nov. 20 and Dec. 18th, 1906. Return limit, 30 days. Send for literature.

C. F. WARREN, Agent A. T. & S. Ry., 411 Dooly Bldg., Salt Lake City, Utah.

The Middle Class Novel.

Is it true that the modern English novel reader insists upon bearing about the rich or the great? I can hardly think so, when I remember the many successful works of fiction dealing with costers and Scottish millers, journalists and typists, actresses and novelists. The Disraeli type of novel seems almost extinct, and the great bulk of works of fiction deal with the middle classes.—London Lady.
